8 June 2020

Greetings from Glenrossie!

Another shocking year, dry as a chip until just recently where we had had over 100mm of rain over a week or so end of May/beginning of June so hopefully we have turned a corner. We bought wrapped bales for the first time ever this year, grew maize and sunflowers for silage and fed all that out before the end of May. Again we were struggling to grow any hay in the spring and ended up with just 1500 of our usual 2500 bales. It has been the length of the dry that has been a real problem, we've been dry since September 2018. Anyway onwards and upwards!

We have gone with a HYBRID sale this year, so you can attend and bid at the sale or not attend and bid online with bidr. You will need to register for the sale on bidr so if you have not used this format before, please make sure that you have a bidr account and are familiar with how it works before sale day. Your PGGW agent should be able to help you with this or bid for you either in person or on bidr. We also have FMG providing 14 days free bull insurance this year with an option to extend the cover to 12 months for 6.5% of the purchase price. See catalogue for details.

There is a lot of information about the bulls on our website [www.glenrossie.co.nz](http://www.glenrossie.co.nz). They each have their own page with all of their details. We have decided to continue with putting up videos of the bulls on the website/YouTube/Facebook this year. We hope that this helps those of you that are situated further afield and are unable to come and view the bulls. There is limited space in the catalogue, so the website is your best bet for photos/videos and extended pedigrees.

You can check out our Facebook page [www.facebook.com/GlenrossieBeef](https://www.facebook.com/GlenrossieBeef) year round to see what we've been up to. We share photos and some videos of the everyday happenings here on the farm. Of course we are always glad to hear from you, so feel free to comment, email or phone us any time.

Our cows have done us proud again this year, the calves are looking really good and the cows are now recovering some body condition. We weaned at around about normal time with weights around normal as well so they've done a great job rearing calves this year.

The COVID virus has been a real shock to everyone this year, who would have thought the whole country would be shut down over a matter of days! As farmers it was pretty much business as usual for us although things have been different when it comes to getting supplies, that's for sure! On the off chance that we are back in Level 3 or 4 at sale day, our sale will be an online bidr only sale. Level 2, there will be limited food and according to the auctioneers rules, it will be registered buyers only in attendance. Level 1 will be business as usual other than the need for contact tracing.

We are looking forward to catching up with you at the sale.

Regards  
**The Glenrossie Team**

## CONDITIONS OF SALE

- The sale will be conducted in accordance with conditions of sale set down by the Northland Stock and Station Agents Association - a copy of which will be exhibited at the sale.
- **RISK:** Each lot will be at the risk of the purchaser as from the fall of the hammer. No errors or omissions in this catalogue will in any way invalidate the sale.
- **FINANCE:** Terms are cash before delivery unless credit arrangements have been made with the Auctioneers prior to sale.
- All bulls in this catalogue are guaranteed fertile.
- This herd is Tuberculosis and Brucellosis accredited.
- Buyers are advised to complete the instruction slip in the back of the catalogue as to transport, insurance and transfers.
- An over-riding commission of 6% is payable to non-participating Companies introducing buyers prior to the sale.

### DISCLAIMER

All details and descriptions as to stock referred to in this catalogue have been supplied to PGG Wrightson by the Vendor and have not been independently verified by PGG Wrightson. PGG Wrightson, its employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of this catalogue (including but not limited to the accuracy or completeness of details and descriptions of stock [and other contents]).

Purchasers, advisors and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and the information in this catalogue.

PGG Wrightson, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from this catalogue.

### CONDITIONS FOR BULL AUCTIONS CONDUCTED LIVE AT A SALEYARD/ON FARM

All intending purchasers must register at the PGG Wrightson Ltd Livestock (PGW) sales office prior to the sale.

The New Zealand Stock & Station Agent's Association Conditions of Sale apply. These terms can be inspected at the registration desk and on the wall in the auction room.

PGW's Monthly Account Terms of Trade also apply to the extent deemed relevant by PGW.

The current versions of PGW's Monthly Account Terms of Trade are also available online at: [www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions](http://www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions) or in hardcopy on request.

On behalf of the vendor, PGW will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock companies and recognised independent livestock agents with a PGW Monthly Account who have introduced buyers to PGW before the sale and/or accompanied buyers to the sale.

### CONDITIONS FOR BULL AUCTIONS CONDUCTED ON bidr®

All intending purchasers must register online at [www.bidr.co.nz](http://www.bidr.co.nz) prior to the sale.

bidr®'s Conditions of Sale and Terms of Use apply. These terms can be inspected at <https://bidr.co.nz/content/user-terms-conditions>

PGW's Monthly Account Terms of Trade also apply to the extent deemed relevant by PGW.

The current versions of PGW's Monthly Account Terms of Trade are also available online at: [www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions](http://www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions) or in hardcopy on request.

On behalf of the vendor, PGW will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock agents with a PGW Monthly Account that are also Accredited Agencies on bidr® where the buyer has registered on bidr® under that Accredited Agency.

## Foreword

The Glenrossie Beef Shorthorn Stud was founded in 1969 with the purchase of Stud Loch females from Malcolm Anderson along with the imported bull Burnton Banter.

We have continued to use top Australian (AI) and New Zealand sires, including 2002 National Sale Beef Shorthorn Champion Austins Ideal 007 and 2013 National Sale Beef Shorthorn Champion Corsock Dazzler 11384. Our commitment to quality has never changed.

Our Santa Gertrudis cattle were originally graded up from selected Beef Shorthorn females and have been bred to the same commercial criteria as our Beef Shorthorns.

Current Sires are:

Saskvalley Taskforce (AI)	Dangarfield Universe (P) (AI)
Glenrossie Hamilton 12061	Corsock Dazzler 11384
Rough Ridge Enhance 9	Waco Morris (P) (AI)
Glenrossie Maximus L103	Bayview Archer

Our aim has always been to breed structurally sound, well fleshed, fast growing bulls for commercial beef producers. Our cattle are run under commercial conditions on grass, silage and hay only. We have supplemented the bulls with sugar beet this year due to the very dry conditions.

We use utes, dogs and we work our cattle on foot. We do not use bikes or horses so please remember that the bulls will need time to get used to them. When your bull arrives please have a few quiet steers or in calf cows in the yards as mates for him. Put him and his mates in a smallish paddock with plenty of grass and feed him some hay or silage for the first week or two until he gets used to you and the routine on your farm.

We offer free delivery north of the Harbour Bridge and have added concessions for buyers further afield.

Bulls are TB accredited C10 and have been BVD tested and vaccinated. Bulls are fully guaranteed for 12 months from the date of purchase for structural soundness and fertility - if there is any problem, we want to know about it so we can fix it.

We do not do stud transfers for bulls with a purchase price less than \$5000.

**PLEASE NOTE:** When reading tables of data, the bottom row is ACTUAL weights and scanning data. The dates are the date of weighing. Scanning date was 14/01/20.

Any questions please ask us and we will be happy to help.

The Ody family.

## Understanding Estimated Breed Values (EBVs)

Only 2018 Trans-Tasman Shorthorn GROUP BREEDPLAN EBVs or interim EBVs with Accuracy (Acc) can be validly compared between Shorthorn herds.

### EBVs OF ONE BREED CANNOT BE COMPARED WITH EBVs OF ANOTHER BREED.

**ESTIMATED BREEDING VALUES (EBVs):** The EBV is an estimate of the genetic value of that particular animal for each trait measured.

**ACCURACY:** Accuracy (%) gives an indication of the amount of information that has been used in the calculation of that EBV. An accuracy of below 75% should be regarded as low, between 76-90% as medium and above 90% as high. Young bulls with performance data but no progeny will all have similarly low accuracies.

Average EBVs for 2018 born animals

CE DI	CE DT	GL	BW	200D	400D	600D	MCW	MILK
+2.1	+1.7	-1.8	+2.8	+27	+38	+51	+44	+6
SS	CWT	EMA	RIB	RUMP	RBY	IMF	SR	DI
+1.5	+34	+4.3	-0.3	-0.2	+1.0	+0.5	+\$57	+\$28

#### CALVING EASE:

Calving Ease EBVs(%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs indicate easier calving. **DI**=animal's influence on progeny. **DT**=daughter's calving ease.

**GL:** Gestation Length EBV. Lower or negative values indicate a shorter gestation length, therefore easier calving.

**BWT:** Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value, the lighter the calf at birth and the lower the likelihood of a difficult birth. Important when selecting sires for use over heifers.

#### FERTILITY:

**SS:** Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. SS is also positively associated with female fertility.

#### GROWTH:

**MILK:** 200-Day Milk EBV (kg) is an estimate of the animal's milking ability. For sires, this EBV is indicative of their daughters milking ability as it affects the 200 and 400 day weight of their calves.

**200W:** 200-Day Growth EBV (kg) is calculated from the weight of animals taken from 80 to 300 days of age. Values are adjusted to 200 days and for age of dam. Best estimate of an animal's genetic merit for growth to early stages.

**400W:** 400-Day Weight EBV (kg) is calculated similar to 200W from animals 301-500 days of age. Best estimate of an animal's genetic merit for yearling weight.

**600W:** 600-Day Weight EBV (kg) is calculated similar to 400W from animals 501-900 days of age. Best estimate of an animal's genetic merit for growth beyond yearling age.

**MCW:** Mature Cow Weight EBV (kg) is an estimate of the genetic differences in cow weight at five years of age.

#### MEAT YIELD:

**CWT:** Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

**EMA:** Eye Muscle Area EBV (cm<sup>2</sup>) estimates genetic differences in eye muscle area at the

12/13<sup>th</sup> rib site of a 300kg dressed carcass. More positive EBVs indicate better muscling on animals.

**RIB:** Rib Fat EBV (mm) estimates the genetic differences in fat depth at the 12/13<sup>th</sup> rib in a 300kg dressed carcass. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**RUMP:** Rump Fat EBV (mm) estimates the genetic differences in fat depth at the P8 site of a 300kg dressed carcass. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**RBV%:** Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcass. A more positive EBV indicates higher percentage yield for the 300kg dressed carcass.

**IMF%:** Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat (marbling) at the 12/13<sup>th</sup> rib site in a 300kg dressed carcass. Depending on market targets, larger more positive values are generally more favourable.

### **SELECTION INDICES**

Shorthorn selection indices are calculated for two market specifications, namely, Self Replacing and Dairy. These Indices relate to typical commercial herds in New Zealand targeting these specifications.

Index values are reported as EBVs, in units of relative earning capacity (\$'s) for a given market. They reflect both the short-term profit generated by a sire through the sale of his progeny, and the longer-term profit generated by his daughters in a self-replacing cow herd (where applicable). A selection index combines the EBVs with economic information (costs and returns) for specific market and production systems to rank animals based on relative profit values. Note that different types of animals can give similar profit values, so consideration should be given to both the index and the component EBVs when selecting animals for a particular production system.

**Self Replacing Index (\$)** - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial self replacing Shorthorn herd targeting the production of pasture finished steers. Steers are assumed marketed at 545 kg live weight (300 kg carcass weight and 10 mm P8 fat depth) at 18 months of age. Daughters are retained for breeding. This index is also suitable in situations where Shorthorn sires are used over mixed British breed cows.

**Dairy Index (\$)** - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial dairy herd using Shorthorn bulls over dairy cows targeting the production of pasture finished dairy beef progeny. Steers and heifers are assumed marketed at 520 kg live weight (280 kg carcass weight and 6 P8 mm fat depth) at 20 months of age. All progeny are slaughtered with no replacement females being retained.

The Trans-Tasman Shorthorn GROUP BREEDPLAN Estimated Breeding Values contained in this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Shorthorn Society of Australia, the Beef Shorthorn Society of Australia, the New Zealand Beef Shorthorn Association nor the ABRI oversee or audit the collection of this data.

Percentile bands for NZ Shorthorns - 2018 born calves

# WE'VE MADE **BULLS** MORE ATTRACTIVE.

14 days  
**FREE**  
cover

6.5%  
for 12  
months

The handsome beasts in this catalogue will look even more appealing on sale day, thanks to FMG - the country's leading rural insurer. With 14 days free Exclusive Bull Cover, they'll be automatically insured from the fall of the hammer, covering their transit and infertility. And you can keep that cover going for the remaining 12 months for just 6.5% of the purchase price, for bulls up to the value of \$50,000. So don't miss this chance to buy bulls covered by FMG. It's a mighty attractive offer.

Please note this is only a summary of FMG products and services and is subject to our specific product documentation. For full details, refer to the relevant policy wordings at [fmg.co.nz](http://fmg.co.nz)

*We're here for the good of the country.*

**FMG**  
Advice & Insurance

## *Exclusive Bull Cover*

### ***What is Exclusive Bull cover?***

All bulls auctioned at this sale up to the value of \$50,000 will automatically be covered under FMG's Exclusive Bull cover for 14 days at no cost to the purchaser.

### ***Length of cover***

To extend cover for the specified bull beyond 14 days you need to tick Exclusive Bull cover 12 months on the Purchaser Instruction and Insurance Slip in this catalogue. The specified bull is then covered for the remaining period of 12 months. The premium is payable to FMG and is in addition to the purchase price of the bull.

If you require an alternative cover period talk to an FMG representative.

### ***Your bull's value***

Any bull covered under this policy must be purchased for \$50,000 or less. For any bull purchased over \$50,000 talk to an FMG representative.

### ***During the period of insurance, the specified animal is covered for:***

- Death or infertility as a result of accident, disease or illness.
- Transit.
- Theft.

### ***What we will pay***

Fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

### ***Disclaimer***

Please note this is only a summary of the product and is subject to our specific product documentation. For full details, you should refer to the policy document. You can get these documents, and any other information you need, from your FMG representative, by calling us or visiting our website.
